

Angles - Multiple Rays

Find the measure of given angles using protractor.

1)

a) $\angle DOE =$ _____

d) $\angle EOF =$ _____

b) $\angle FOG =$ _____

e) $\angle DOF =$ _____

c) $\angle FOH =$ _____

f) $\angle EOG =$ _____

2)

a) $\angle SOT =$ _____

d) $\angle ROS =$ _____

b) $\angle TOV =$ _____

e) $\angle SOV =$ _____

c) $\angle ROT =$ _____

f) $\angle ROU =$ _____

Answer Key

Find the measure of given angles using protractor.

1)

a) $\angle DOE = \underline{45^\circ}$

d) $\angle EOF = \underline{50^\circ}$

b) $\angle FOG = \underline{67^\circ}$

e) $\angle DOF = \underline{95^\circ}$

c) $\angle FOH = \underline{85^\circ}$

f) $\angle EOG = \underline{117^\circ}$

2)

a) $\angle SOT = \underline{33^\circ}$

d) $\angle ROS = \underline{78^\circ}$

b) $\angle TOV = \underline{69^\circ}$

e) $\angle SOV = \underline{102^\circ}$

c) $\angle ROT = \underline{111^\circ}$

f) $\angle ROU = \underline{155^\circ}$
